All residential and business neighbors located within 1,000 feet of the proposed new or modified sources of air pollution listed below.

FROM: Bay Area Air Quality Management District

RE: Permit Application #30654 for the following sources of air pollution:

**Three (3) Standby Emergency Diesel Engines
Quality Investment Properties Santa Clara LLC
2807 Mission College Boulevard
Santa Clara, CA 95054**

The Bay Area Air Quality Management District (the “District”) is a local agency that regulates stationary sources of air pollution such as factories, industrial sites, and gasoline stations.

Whenever we receive a permit application for a new or modified source(s) of toxic air contaminants located within 1,000 feet of a school site, State law requires that we notify the public. To comply with this requirement, we distribute or mail a Public Notice to the parents or guardians of students enrolled at schools located within ¼ mile, and all residents and businesses located within 1,000 feet, of the proposed sources.

You are receiving this Public Notice because a permit application has been filed with the District for the above referenced sources of air pollution. A description of the proposed project follows:

Quality Investment Properties Santa Clara LLC has applied for an Authority to Construct and Permit to Operate three standby emergency generators that will be fired by diesel fuel.
